**Work Order #:**

WO 3273 Tyler #2

Terms:

Quotes are good for 30 days.

**INCLUSIONS:** Quotes are for stone, template, fabrication and stone install, unless otherwise noted.

**EXCLUSIONS:** All plumbing, cabinetry, electrical and prep work is the responsibility of the customer. Any electrical outlets may need wires to be extended, and/or extension boxes. Removal of existing countertops are not quoted unless otherwise noted. Once the old countertop is removed, customer assumes responsibility for patching holes, painting, tiling, and/or replacing trim on newly exposed surfaces. Sub-decking (build-up) and stone support for overhangs are the responsibility of the customer, or can be quoted by Ventura Stone CDA.

**REMNANTS:** Customer to identify in writing any remnants desired by the day of template. Delivery of the remnants may be an extra charge and can be quoted to the customer for approval. We are not able to store remnants, and therefore cannot guarantee any remnants will be saved if not indicated by template. Remnants are typically discarded during fabrication and are not able to be retrieved. Final payment will not be withheld over any remnants. Remnants have sharp edges and may be dangerous.

**CUSTOMER ON-SITE:** Unless other arrangement have been made with Ventura Stone CDA prior to order, customer and/or contractor must be present for template and install to allow access, confirm details (i.e. sink and faucet placement). On the day of install, customer and/or contractor must approve final install, but out of the way for safety reasons.

**YOUR TEMPLATE APPOINTMENT:**

- All countertops will need to be cleared of all obstructions to provide the most accurate measurements.
- Please have all cabinets securely installed in their permanent position and level. After template, cabinets must not move. Cabinets must be flat and level within 1/8".
- All appliances affecting measurements will need to be on site. If appliances are not available, a spec sheet can help, but will not guarantee the details of any complexity.
- Ventura Stone CDA uses customer provided measurements to provide an estimate. Pricing may change based on accurate measurements taken at the template appointment.
- Sink must be onsite unless Ventura Stone CDA is providing one. Customer is responsible for installing farm and apron front sinks. Farm and Apron front sinks must be cradled and installed in place within the cabinetry prior to template.
- Faucets, soap dispensers, sprayer and other accessories requiring holes should be on site. If this is not possible for template, all relevant model information (spec sheets) should be available to our template tech. Customer and/or contractor is responsible to designate the location of the sink set backs and faucet/accessory locations.
- If our template tech arrives for the template and the cabinets are not ready to be templated or any install preparation requirements are not met prior to install, it may result in a minimum trip charge of \$400 each time a crew must come out. Customer cancellation of the appointment needs to be more than 48 hours prior to the scheduled date to avoid a charge.

Initial: \_\_\_\_\_

**CHANGES AND POST TEMPLATE:** Any customer changes after order may result in a delay and/or \$350 change order fee which may cause a price increase. All final pricing will be based on templated measurements and any customer additions, since rough dimensions do not always match templated measurements. You will be notified if there is any price adjustment to your order after template for approval.

If your project requires additional equipment or manpower to install your stone due to unforeseen obstacles (including but not limited to: stairs, crane equipment, house layout) the cost of the additional resources will be added to the final invoice.

**SEAM LOCATION AND SLAB LAYOUT:** All seam locations slab layout are determined by Ventura Stone, unless otherwise noted, and we reserve the right to place seams and slab layout in the most structurally sound locations. Seam locations and slab layout are determined after our engineering review.

**DEMO:** If demo is quoted from Ventura Stone CDA, only the countertop and/or backsplash will be removed. VENTURA STONE CDA IS NOT A PLUMBER OR AN ELECTRICIAN AND DOES NOT WORK ON ANY PLUMBING OR ELECTRICAL IN ANYWAY. The customer is responsible for coordinating the disconnection and reconnection of any sinks/appliances and plumbing/electrical/gas. The customer may hire a plumber, contractor or handyman to complete the disconnects/reconnects or any other prep work.

Initial: \_\_\_\_\_

**YOUR INSTALL APPOINTMENT:**

- Please ensure that there is a clear, obstacle free path to the installation site.
- All cabinets should be free of debris, including existing tops.
- Stone products can be very awkward and some minor damage to walls and cabinets can occur.
- We are very careful not to let the stone touch anything while we are installing but sometimes accidents can occur. Ventura Stone CDA assumes no responsibility for finished or painted surfaces on the job site.

• During the install of stone, it is to be expected to be a large construction process. Customers should expect dust and minor debris during and after the installation.

• We recommend plumbing re-connect being a minimum of 12 hours after install. VENTURA STONE CDA DOES NOT PROVIDE ANY PLUMBING SERVICES.

• Stone can be unpredictable, so delays are possible. Actual installation date may vary depending on factors such as job-site conditions, accessibility, project complexity, customer changes, vendor delays, slab shipping or acts of nature. We do our best to forecast difficult installs, but some delays will be beyond our control.

Initial: \_\_\_\_\_

**NATURE OF STONE:** Stone countertops are beautiful, polished rocks. Natural variations in the stone occur and enhance the beauty. Fissures, pits, voids, dull spots, textural differences, and thickness variations are not considered defects and will not warrant a remake or discount. Quartz also has natural variations in the pattern and material. For quartz, please refer to the manufacturer's warranty for any further details. Never stand on countertops, as natural fissures beneath the surface can be unpredictable. For granite, a sealant needs to be chosen by the customer since there are many brands on the market. If the customer would like our installers to apply the sealant, the customer needs to have the sealant at the install. Our installers carry clear and white caulk. If you would prefer a color matching caulk, please be sure to provide the caulk at installation.

Initial: \_\_\_\_\_

**RIGHT TO REMEDY:** Stone is very unpredictable. Ventura Stone CDA takes great care in building your countertops but occasionally fabrication delays or repairs may occur. Ventura Stone CDA has the right to remedy the countertops and complete the installation as agreed upon.

Initial: \_\_\_\_\_

**MATTE, SUEDE, HONED AND BLACK QUARTZ:** Please note that matte, suede, honed and black quartz surfaces may show fingerprints and may be harder to clean than polished quartz. Also, it is difficult to match the sheen if a chip repair is needed.

Initial: \_\_\_\_\_

**CONSTRUCTION ZONE:** Countertop installation is a construction process. If our installers need to cut on site, there may be dust and noise. For any areas you do not want dust on, please cover the area. Also please move any valuable items that may be in the way during installation.

We recommend waiting until after your new countertops are installed to do any work such as painting or trim. After countertop installation, bubble wrap or padding is highly recommended if other work is being done around or over the countertops. Ventura Stone is not liable for damage after the counters are installed.

**LATE FEE:** By the 3rd day after invoice is emailed to the customer, a 5% late penalty will be added. Past due invoices after 15 days of the invoice date will be subject to late charges of 1.5% interest per month. Customer bears the cost of collections, including any reasonable attorney's fees.

**RESTOCKING FEE:** A 20% restocking fee will be applied to materials on all approved cancellations within 30 days of their order. The customer's deposit is non-refundable after 30 days of their order.

**CREDIT CARD TRANSACTION FEE:** A 3% transaction fee will be applied to payments made by credit card.
